

FIGURE 0 J

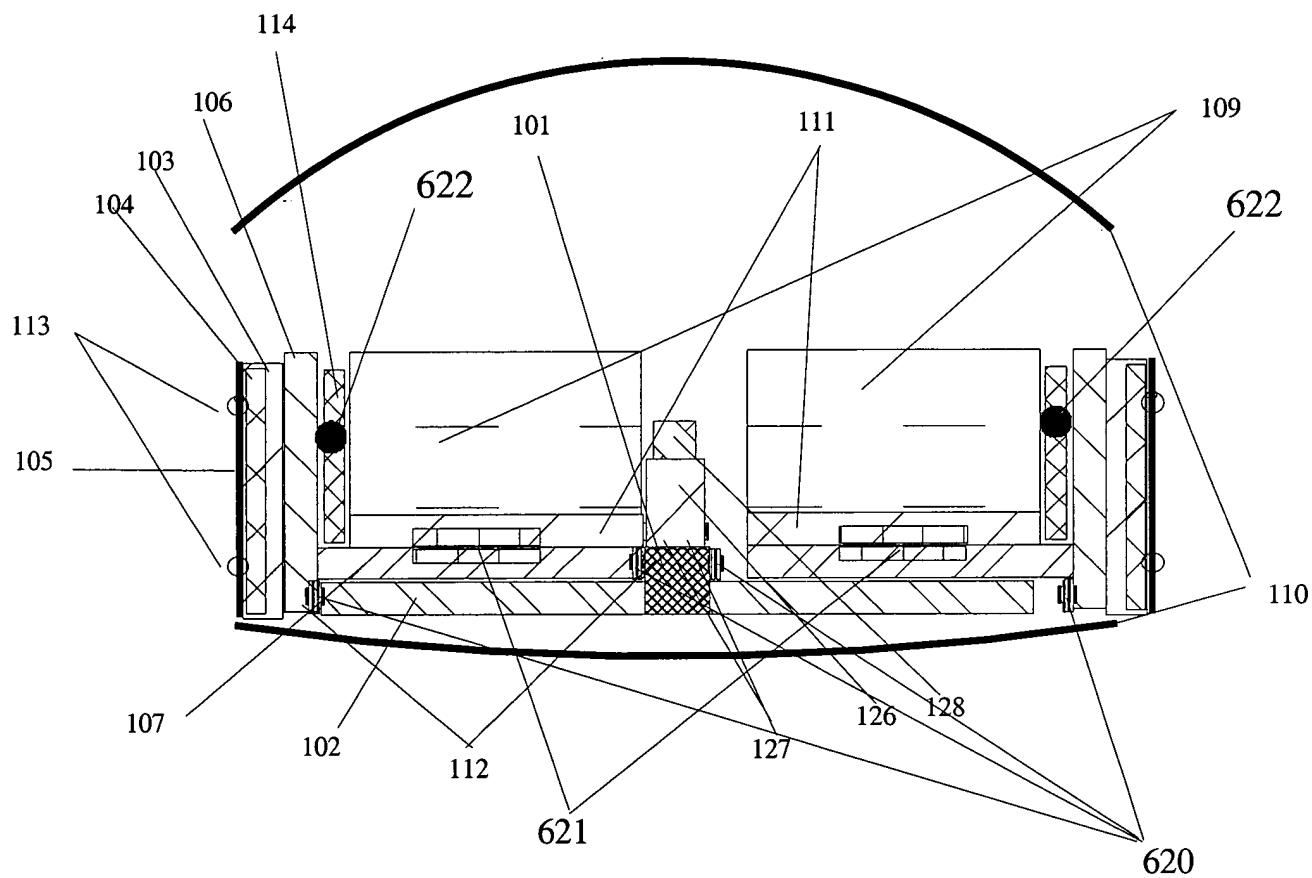

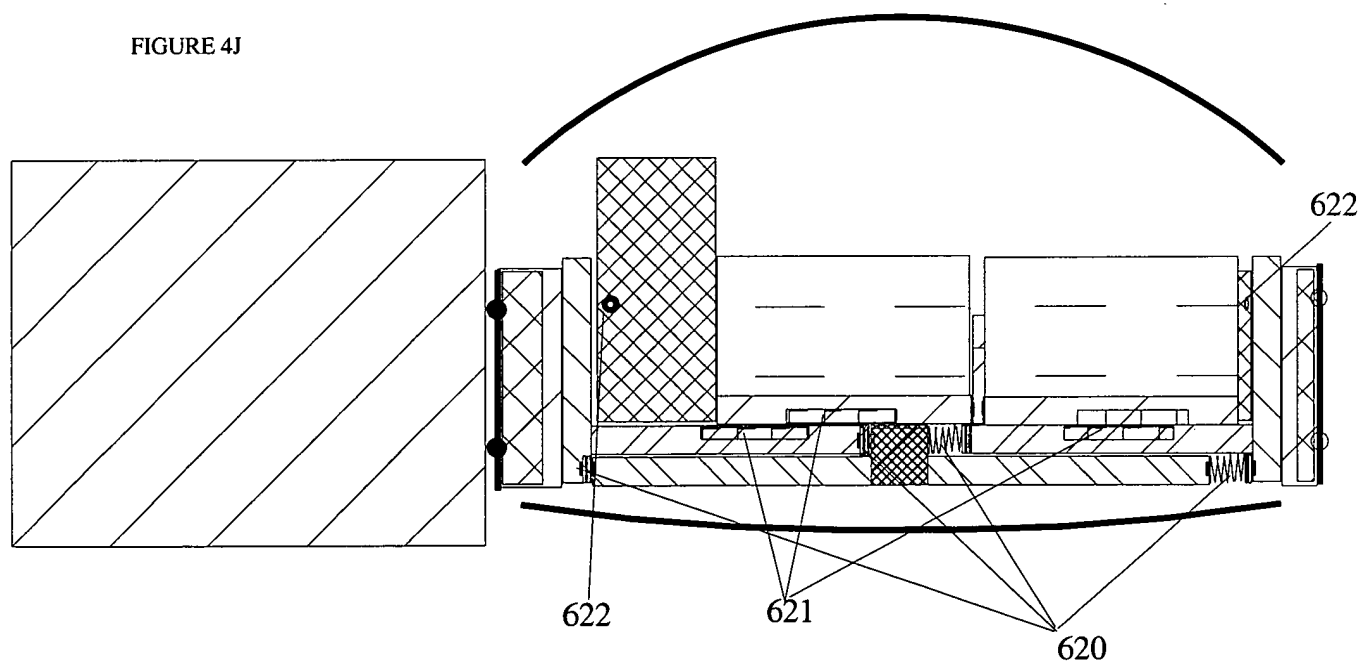

FIGURE 4J

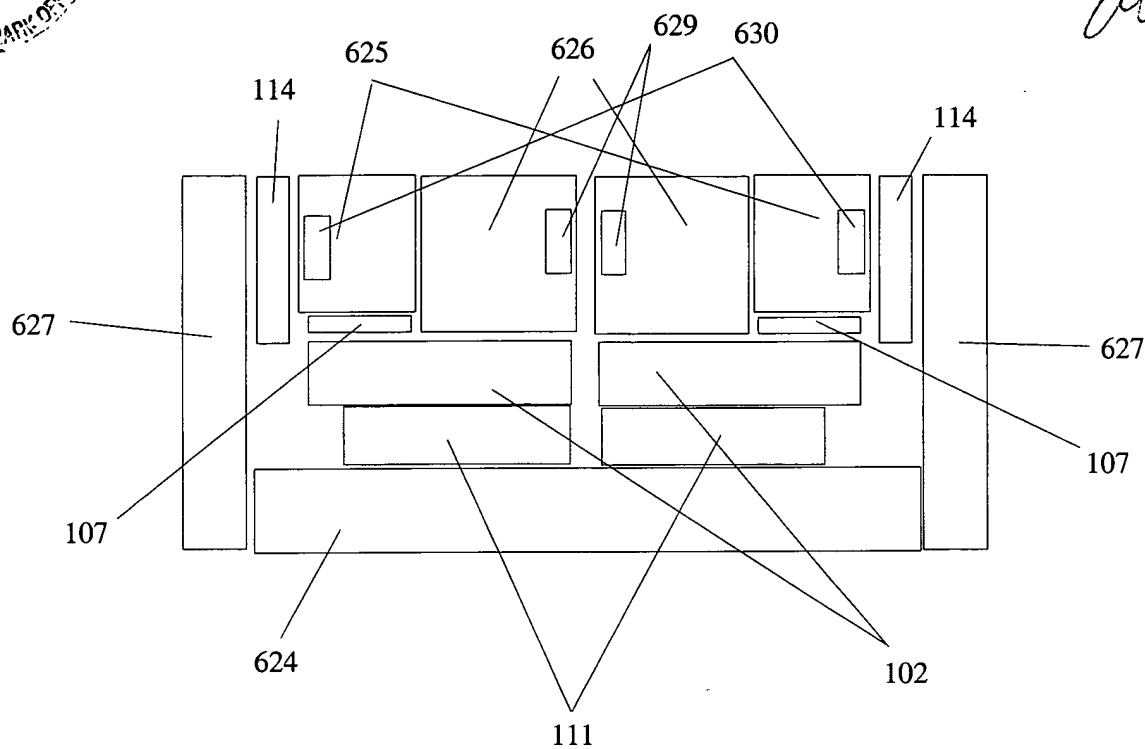

A detailed cross-sectional view of a dome-shaped structure, likely a vehicle or a specialized container. The structure features a curved top and a flat base. Internal components include two large rectangular blocks (101, 111) supported by a central vertical structure (112). The base is divided into sections (102, 102') and (126, 128). The structure is sealed with a gasket (620) and has various fasteners (621, 622, 628) and structural elements (103, 104, 105, 106, 107, 109, 110, 113, 114) indicated by leader lines.
